KEYWORD:
A keyword is a word or phrase related to your topic that can be used as a search term.

KEYWORD LIST:
Developing a good list of keywords is an essential part of doing research.
The more keywords you have, the better the odds of finding the information you’re looking for.

Start with the keywords in your topic.
Then think of what keywords you can brainstorm by answering these questions about your topic?

Your Topic:

Main Keywords:

Synonyms:

Who?
What?
Where?
When?
How?
Why?
