Citing Websites with NoodleTools

7 Elements* to include in your Citation:

1. URL (web address)
2. Date of publication (copyright date or last modified date/last update)
3. Most recent date of access (when you looked at the page)
4. Contributor (authors, editors, translators)
5. Web page title or document/article title (look at title bar/tab bar)
6. Name of the website (usually at the top)
7. Publisher of the site (look for a logo, also usually near copyright date)

*Citing websites can be challenging! You may not find ALL 7 elements. Add as many as possible to your NoodleTools website citation template.
